Re: European Patent Application No. 22714640.4
Applicant: Universal City Studios LLC
Title: "Mirror Wedge Illusion System and Method"
Our Reference: FP74577EP/KBA

In connection with the above-referenced application, and in response to the Communication under Rule 71(3) EPC dated 25 March 2026, we hereby disapprove the text as proposed for grant and request amendments as set out herein (Rule 71(6) EPC).

We file herewith an amended set of claims to replace the claims in the text proposed for grant. A marked-up version of the amended claims is also enclosed. This is marked-up relative to the claims as proposed in the text for grant.

For the avoidance of doubt, we accept the changes in pages 1 to 14 of the description and to claim 9.

Amendments

Amended Claim 5 recites: “wherein ~~the first surface of~~ the first mirror portion and ~~the second surface of~~ the second mirror portion each comprise a dual-surface mirror according to Claim 1” Basis for this amendment is found in the first sentence of paragraph [0030] and also the first sentence of paragraph [0035].

Further Remarks

We kindly request that the Examining Division issue a new Communication under Rule 71(3) containing the amended page(s) as enclosed.

It is respectfully submitted that the amendments entered do not alter the substantive merits of the application or the allowed claims, and accordingly, the reasons for the Examining Division’s issuance of a proposal for grant still apply.

As a precaution, the Applicant hereby requests oral proceedings by video conference for the unlikely event that the immediate refusal of the application were to be contemplated.

If you have any questions or require any further information, please contact the undersigned Representative via Kimberley.bayliss@keltie.com.
