CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing claims for which payment was due.

☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):

☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.

☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.

☒ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:

1-8 (partially)

☐ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

☐ The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

LACK OF UNITY OF INVENTION
SHEET B

Application Number
EP 22 16 0834

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1, 2, 5-8(all partially)

A method for determining, diagnosing and/or prognosing an individual's risk of suffering from cardiovascular disease by detecting in a sample the expression level, amount and/or activity of TNF and GSTA1 alone or in combination with other markers selected from the markers as disclosed in claim 1, and a corresponding kit.

---

2. claims: 1, 2, 5-8(all partially)

A method for determining, diagnosing and/or prognosing an individual's risk of suffering from cardiovascular disease by detecting in a sample the expression level, amount and/or activity of NT-proBNP and RORA alone or in combination with other markers selected from the markers as disclosed in claim 1, and a corresponding kit.

---

3. claims: 3, 4(completely); 1, 2, 5-8(partially)

A method for determining, diagnosing and/or prognosing an individual's risk of suffering from cardiovascular disease by detecting in a sample the expression level, amount and/or activity of two or more biomarkers selected from the biomarkers as disclosed in claim 1, and and a corresponding kit.

---

4. claims: 9, 10(completely); 13-15(partially)

A method for determining, diagnosing and/or prognosing an individual's risk of suffering from cardiovascular disease by detecting in a sample a single nucleotide polymorphism (SNP) in the RORA gene, and medical use of the RORA.

---

5. claims: 11, 12(completely); 13-15(partially)

A method for determining, diagnosing and/or prognosing an individual's risk of suffering from cardiovascular disease by detecting in a sample a single nucleotide polymorphism (SNP) in the GHR gene, and medical use of the GHR.

ANNEX TO THE EUROPEAN SEARCH REPORT ON EUROPEAN PATENT APPLICATION NO. EP 22 16 0834

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
