THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies.

If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above.

If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)".

For purposes of this notice, small entity fees are 40% the amount of undiscounted fees, and micro entity fees are 20% the amount of undiscounted fees.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Maintenance fees are due in utility patents issuing on applications filed on or after Dec. 12, 1980. It is patentee's responsibility to ensure timely payment of maintenance fees when due. More information is available at www.uspto.gov/PatentMaintenanceFees.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), by mail or fax, or via the USPTO patent electronic filing system.

By mail, send to: Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

By fax, send to: (571)-273-2885

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications. **Because electronic patent issuance may occur shortly after issue fee payment, any desired continuing application should preferably be filed prior to payment of this issue fee in order not to jeopardize copendency.**

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. The United States Patent and Trademark Office (USPTO) collects the information in this record under authority of 35 U.S.C. 2. The USPTO's system of records is used to manage all applicant and owner information including name, citizenship, residence, post office address, and other information with respect to inventors and their legal representatives pertaining to the applicant's/ owner's activities in connection with the invention for which a patent is sought or has been granted. The applicable Privacy Act System of Records Notice for the information collected in this form is COMMERCE/PAT-TM-7 Patent Application Files, available in the Federal Register at 78 FR 19243 (March 29, 2013).
https://www.govinfo.gov/content/pkg/FR-2013-03-29/pdf/2013-07341.pdf

Routine uses of the information in this record may include disclosure to:

1) law enforcement, in the event that the system of records indicates a violation or potential violation of law;
2) a federal, state, local, or international agency, in response to its request;
3) a contractor of the USPTO having need for the information in order to perform a contract;
4) the Department of Justice for determination of whether the Freedom of Information Act (FOIA) requires disclosure of the record;
5) a Member of Congress submitting a request involving an individual to whom the record pertains, when the individual has requested the Member's assistance with respect to the subject matter of the record;
6) a court, magistrate, or administrative tribunal, in the course of presenting evidence, including disclosures to opposing counsel in the course of settlement negotiations;
7) the Administrator, General Services Administration (GSA), or their designee, during an inspection of records conducted by GSA under authority of 44 U.S.C. 2904 and 2906, in accordance with the GSA regulations and any other relevant (i.e., GSA or Commerce) directive, where such disclosure shall not be used to make determinations about individuals;
8) another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c));
9) the Office of Personnel Management (OPM) for personnel research purposes; and
10) the Office of Management and Budget (OMB) for legislative coordination and clearance.

If you do not furnish the information requested on this form, the USPTO may not be able to process and/or examine your submission, which may result in termination of proceedings, abandonment of the application, and/or expiration of the patent.

/HOWARD D BROWN JR/
Examiner, Art Unit 2488

DETAILED ACTION

1. This Office Action for U.S. Patent Application No. 18/247,091 is responsive to communications filed on 03/04/2025, in reply to the Final Rejection mailed on 12/04/2024. Currently, claims 1, 3-5, 7-9, 11-14 are pending.

Notice of Pre-AIA or AIA Status

2. The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Priority

3. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119 (a)-(d). The certified copy has been filed.

Continued Examination Under 37 CFR 1.114

4. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/04/2025 has been entered.

Response to Arguments

5. In regard to claims 1, 3-5, 7-9 and 11-14 these claims were rejected under 35 U.S.C. § 103 as being obvious over U.S. 2022/0089188 (hereinafter, "Tsugawa') in view of U.S. 2008/0230681 (hereinafter, "Yoshizu'). Claim 3 was rejected as being obvious over Tsugawa in view of Yoshizu and U.S. 2012/0019940 (hereinafter, "Lu'). Claims 7-14 were rejected as being

obvious over Tsugawa in view of Yoshizu and U.S. 11,287,784 (hereinafter, "Picardi'). The Applicant respectfully traverses the above rejections at least for the reasons previously set forth during prosecution and at least based on the following remarks.

Tsugawa describes the internal vehicle camera 3 which includes the camera and the projector. Tsugawa further describes that the band pass filter is provided inside the camera, and the visible light cut filter is provided in front of the projector. Tsugawa further describes that the band pass filter removes light of wavelength components other than near infrared light, and the visible light cut filter removes light of the red wavelength component emitted from the near infrared LEDs. However, Tsugawa does not describe that the internal vehicle camera 3 includes a reflective plate that changes a direction of the light emitted from infrared LEDs such that the changed direction is along an optical axis of the camera.

The Applicant submits that Tsugawa does not teach, suggest, or render obvious at least, for example, the features of "a reflective plate configured to change a first direction of the infrared light projected from the infrared light source to a second direction ... along an optical axis of the camera unit," as recited in amended independent claim 1. Further, Yoshizu does not remedy the above noted deficiency of Tsugawa. Therefore, amended independent claim 1 is not taught, suggested, or rendered obvious by the combination of Tsugawa and Yoshizu. Examiner agreed.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance: The instant invention is related to in-vehicle camera system and control method thereof.

Prior art was found for the claims as follows:

Re. Claim 1, Tsugawa [US Pub. No.: 2022/0089188 A1] discloses:

An in-vehicle camera ***[internal vehicle camera 3| Fig. 1, 0027]***, comprising: an infrared light source configured to project infrared light ***[camera 3 comprises a projector comprised of two near infrared LEDs placed at the both sides of the camera |0027]***;

a camera unit that includes:

lens unit;

and an imaging device unit wherein the camera unit has ***[The internal vehicle camera 3 includes a lens and an image capturing element and is for example a CMOS (complementary metal oxide semiconductor) camera or a CCD (charge coupled device) camera |0027]*** a sensitivity to a wavelength of the infrared light ***[a band pass filter removing light of wavelength components other than near infrared light is provided inside the camera |0027]***;

and a board wherein the infrared light source and the camera unit are on the board ***[The projector is comprised of LEDs (light emitting diodes). For example, it is comprised of two near infrared LEDs placed at the both sides of the camera |0027]***.

and a mirror configured to deflect the infrared light projected from the infrared light source [***a visible light cut filter removing light of the red wavelength component emitted from the near infrared LEDs is provided in front of the projector.|0027]*** in a direction along an optical axis of the camera unit, wherein the infrared light passes through the transparent material portion based on the deflection ***[a band pass filter removing light of wavelength components other than near infrared light is provided inside the camera, while a visible light cut filter removing light of the red wavelength component emitted from the near infrared LEDs is provided in front of the projector. To the examiner the band pass filter disposed in the internal camera for infrared light is equivalent to a***

mirror that deflects infrared light and a visible light cut filter removing light of the red wavelength component emitted from the near infrared LEDs is provided in front of the projector.|0027].

In the same field of endeavor discloses Yoshizu et al., [US Pub. No.: 2008/0230681 A1] discloses:

a board ***[a camera board 20 |0051,0067]*** a casing that incorporates the board ***[outer case 74 |Fig. 1, 0063]***, wherein the casing includes a transparent material portion that allows the infrared light to pass through ***[Fig.1 Shows a case for housing camera components… the case is used to capture images with in a low lighting environment… it is obvious to have the case be made up of a transparent material to capture images outside of the case |Fig.1 el 74, 0028, 0063, 0073]***;

Therefore, it would have been obvious to one with ordinary skill in the art before the effective filing date of the claimed invention to combine Tsugawa with Yoshizu to have camera housing base for mounting camera and components together at position to carryout imaging in an in-vehicle environment [0060].

7. Applicant uniquely claimed a distinct feature in the instant invention, which are not found in the prior art, either singularly or in combination. The claims are allowable because the prior art fails to disclose to specifically disclose the following claim limitations:

Re. Claim 1, ***"…the casing includes a transparent material portion that allows the infrared light to pass through; and a reflective plate configured to change a first direction of the infrared light projected from the infrared light source to a second direction, wherein the second direction is along an optical axis of the camera unit, the second direction is different***

from the first direction, and the infrared light in the second direction passes through the transparent material portion".

Re. Claim 13, ***"...determining a turn-on operation of a direction indicator of a second vehicle based on an image obtained by a rear monitoring sensor of a first vehicle; and turning on an infrared light source included in the in-vehicle camera based on the determination, wherein the rear monitoring sensor is different from the in-vehicle camera, the in-vehicle camera is on the first vehicle, the infrared light source and a camera unit are on a board included in the in-vehicle camera, and the second vehicle follows the first vehicle."***

Re, Claim 14, ***"...determining a turn-on operation of a direction indicator of a second vehicle based on an image obtained by a rear monitoring sensor of a first vehicle; and turning on an infrared light source included in the in-vehicle camera based on the determination, wherein the rear monitoring sensor is different from the in-vehicle camera, the in-vehicle camera is on the first vehicle, the infrared light source and a camera unit are on a board included in the in-vehicle camera, and the second vehicle follows the first vehicle."***

This feature is not found or suggested in the prior art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."

9. Claims 1, 3-5, 7-9 and 11-14 are allowed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HOWARD D BROWN JR whose telephone number is (571)272-4371. The examiner can normally be reached Monday - Friday 7:30AM - 5:00PM EST.

Examiner interviews are available via telephone, in-person, and video conferencing using a USPTO supplied web-based collaboration tool. To schedule an interview, applicant is encouraged to use the USPTO Automated Interview Request (AIR) at http://www.uspto.gov/interviewpractice.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sathyanarayanan Perungavoor can be reached on 5712727455. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
