THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies.

If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above.

If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)".

For purposes of this notice, small entity fees are 40% the amount of undiscounted fees, and micro entity fees are 20% the amount of undiscounted fees.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Maintenance fees are due in utility patents issuing on applications filed on or after Dec. 12, 1980. It is patentee's responsibility to ensure timely payment of maintenance fees when due. More information is available at www.uspto.gov/PatentMaintenanceFees.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

DETAILED ACTION

Notice of Pre-AIA or AIA Status

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Kevin Bronson on 10/09/2026.

The application has been amended as follows:

Claim 1 (currently amended): A method of screening for cancer in a subject, said method comprising determining the level and/or chemical composition of [[the]] a natural protein-free fraction of one or both of the glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample, wherein said sample has been obtained from said subject[[.]], and wherein said natural protein-free fraction is a naturally free (not protein-bound) fraction disposed in an original, initial, or unprocessed sample.

Claim 32 (currently amended): A method of screening for cancer in a subject, said method comprising determining the level and/or chemical composition of one or both of [[the]] a natural protein-free fraction of at least one of glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample,

wherein said body fluid sample has been obtained from said subject and has been subjected to processing prior to determining said level and/or chemical composition, wherein said processing (a) comprises fragmenting said one or both GAGs into disaccharide units; and (b) does not comprise prior to (a) at least one of:(i) contacting said sample with a proteolytic agent; and (ii) purifying said one or both GAGs in said sample based on the negative charge of said GAGs.

` Claim 35 (currently amended): A method of determining the level and/or chemical composition of [[the]] a natural protein- free fraction of one or both of the glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS), said method comprising:

(a) obtaining a body fluid sample from a human patient; and

(b) detecting the level and/or chemical composition of the natural protein-free fraction one or both of the glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in said body fluid sample [[.]], and wherein said natural protein-free fraction is a naturally free (not protein-bound) fraction disposed in an original, initial, or unprocessed sample.

Claim 36 (currently amended): A method of determining the level and/or chemical composition of one or both of [[the]] a natural protein-free fraction of at least one of glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample, wherein said body fluid sample has been obtained from said subject and has been subjected to processing prior to determining said level and/or chemical composition, wherein said processing (a) comprises fragmenting said one or both GAGs into disaccharide units; and(b) does not comprise prior to (a) at least one of:(i) contacting said sample with a proteolytic agent; and(ii) purifying said one or both GAGs in said sample based on the negative charge of said GAGs.

Response to Arguments

Applicant's arguments, see pages 1-4 of remark , filed 9/17/2026 and examiner's amendments of 10/09/2026 (presented above), with respect to claims 1-33 and 35-36 have been fully considered and are persuasive. The 102 and 103 rejections of claims 1-33 and 35-36 have been withdrawn.

Election/Restrictions

Claims 1-31 are allowable. Claims 32, 33, 35 and 36, previously withdrawn from consideration as a result of a restriction requirement, requires all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the**

restriction requirement between inventions I-III, as set forth in the Office action mailed on 04/02/2026, is hereby withdrawn and claims 32, 33, 35 and 36 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-33 and 35-36 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art, Gatto et al (US PGPub 2019/0391151, cited in the IDS) teaches a method of screening for cancer in a subject (see abstract), said method comprising determining the level and/or chemical composition of one or both of the glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample (see [0042]-[0044] and [0583], wherein said sample has been obtained from said subject (see [0006] and [0042]).

In addition, Crawford et al (US PGPub 2012/0009616) teaches a method of screening for cancer in a subject (see [0115] and [0274]), said method comprising determining the level and/or chemical composition of one or both of the

glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample , wherein said sample has been obtained from said subject (see abstract, [0041]-[0043] and [0099]).

However, neither Gatto et al or Crawford et al (alone or in combination) teaches or fairly suggests determining the level and/or chemical composition (i.e. detecting) of a *natural* protein-free fraction of one or both of the glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample, wherein said sample has been obtained from said subject, and *wherein said natural protein-free fraction is a naturally free (not protein-bound) fraction disposed in an original, initial, or unprocessed sample* (as claimed in claims 1 and 35). In addition, neither Gatto et al or Crawford et al (alone or in combination) teaches or fairly suggests determining (i.e. detecting) the level and/or chemical composition of one or both of a *natural* protein-free fraction of at least one of glycosaminoglycans (GAGs) chondroitin sulfate (CS) and heparan sulfate (HS) in a body fluid sample, wherein said body fluid sample has been obtained from said subject and has been subjected to processing prior to determining said level and/or chemical composition, w*herein said processing comprises fragmenting said one or both GAGs into disaccharide units; and does not comprise prior to said processing step at least one of: (i) contacting said sample with a proteolytic agent; and (ii) purifying said one or both GAGs in said sample based on the negative charge of said GAGs* (as claimed in claims 32 and 36).

Therefore, claims 1, 32, 35 and 36 are allowed, and claims 2-31 and 33 are also in condition for allowance based on their dependence from claims 1 and 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
