RESPONSE TO THE COMMUNICATION PURSUANT TO ARTICLE 94(3) EPC

Dear Madam, Dear Sir,

In response to the Communication pursuant to Article 94(3) EPC, we file herewith, on behalf of the Applicant, amended page(s) of the description, an amended set of claims (clean and marked-up versions) and comments as detailed hereinafter.

I. Amendments

Amended claim 1 is the combination of pending claims 1, 2 and 3.

The description is amended to be brought into conformity with the amended claims at §[0008],[0012] and [0014].

It is submitted that the amendments are compliant with Article 123(2) EPC.

II. Objections

Amended claim 1 now include the features of previously pending claims 1, 2 and 3, and thus defines corresponding conditions (a), (b) and (c) as identified by the Examiner.

For these reasons, no essential feature is lacking from amended claim 1, which is compliant with Article 84 EPC.

Patentability

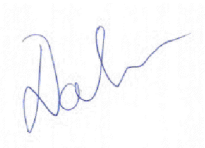

No objection being raised, it is referred to our patentability arguments filed in our reply of November 6, 2024, which still apply, mutatis mutandis, to amended claim 1.

III. Final remarks

Applicant believes that the application complies with all the EPC requirements and may now proceed to grant. However, if any matters require further clarification, Applicant would appreciate a telephone discussion with the Examiner. In the event that the Examining Division should refuse the application without giving the Applicant a further opportunity to respond in writing, oral proceedings are requested, preferably by video-conferencing.

The Applicant does not waive the right to file new claims or a divisional application covering any one of the elements of the application as initially filed (Guidelines, A-IV §1.1.1).

Yours faithfully,

Fabien DALSHEIMER
